

Wireless Communication Module

SMART AND FLEXIBLE

- Supporting DHCP, and automatic network transmission without configuration
- Applicable to scenarios in which wireless communication is inaccessible

() SIMPLE AND EFFICIENT

- Support of local and remote parameter setting and firmware updates
- Support fast distribution network, automatic station building, and data interval in seconds
- Plug and play, quick installation

SAFE AND RELIABLE

- Password and encrypted transmission for data protection
- IP66, wide temperature range

| Type designation | WiNet-S2 |
|-----------------------------------|---|
| Basic data | |
| Supported device number | 1 |
| LED display | LED*3 |
| Communication | |
| Ethernet | 10/100 Mbps self-adaption , Communcation distance ≤ 100 m |
| WLAN | 2.4 GHz , 802.11 b/g/n |
| Power supply | |
| DC input | 5 VDC , 2.1 A |
| Power consumption | Тур. 1.3 W |
| Ambient conditions | |
| Operating temperature | -30 °C ~ 60 °C |
| Allowable relative humidity range | ≤ 95 % , non-condensing |
| Max. operating altitude | ≤ 4000 m |
| Protection class | IP66 |
| Mechanical parameters | |
| Dimensions (W*H*D) | 48 * 132 * 36 mm |
| Installation | Plug and play |
